

Face Paint

Everything you need to know

What is Included with a face paint addition?

What is a character attendant?

What Is the difference between basic and professional face paint?

WHAT DOES THIS LOOK LIKE?

- ✦ Face paint can be swapped out for temporary tattoos during 60-minute parties for 10 children or less if a character attendant or additional character is added. This option includes basic-level face paint.
- ✦ For face paint, the client should provide the space, table, chairs, and additional water and napkins as needed.
- ✦ For 90-120 min parties, we will do somewhere between basic and full-level face paint depending on the number of children present and the number of characters/ attendants available to help.
- ✦ 90-minute parties: We estimate full-level face paint for 6 children or less, mid-level face paint for 9 children or less, and basic level for 10 or more children.
- ✦ We never recommend more than 25 children needing face paint without an additional attendant or character
- ✦ Corporate clients may pay us per hour at a \$225/hr minimum. We recommend an attendant with every corporate booking or corporate clients should cut off the face paint line when needed.

WHAT IS A CHARACTER ATTENDANT?

- ✦ A character attendant is a person wearing our company t-shirt who will assist with activities, face paint, music, clean up, and communication. It helps for a smoother party. Character attendants are automatically included with superheroes, mascots, and mermaids. It is usually recommended to add on a character attendant if the party has more than 10 children or is 90-120 minutes.

BASIC FACEPAINT

- ✦ The more children that are at the party, the less elaborate the face paint will be.
- ✦ Basic face painting is done by performers who are non-certified professional face painters but have practice face painting.
- ✦ If we are short on time, we will do basic face painting, but the longer time we have, the more elaborate the design we can do
- ✦ Basic face painting is usually a simple design done on the hand or cheek, or can be done with a stencil
- ✦ 60-minute super hero packages always include basic face paint, and can be added to princess packages 60 minutes and up.

PROFESISONAL FACE PAINT

- ✦ Professional face painting includes a person dressed in our company t-shirt (not a performer) who provides more elaborate full-face painting designs. This is not the same as a character attendant, as they will only face paint for the entirety of the party.
- ✦ Clients can be upgraded to professional face painting based on availability.
